

CLUB **GT**

'Through all our activity on and off track, we have the unique ability to make the ownership experience as incredible and rewarding as possible, so creating the Lotus Club-GT was a natural step for us. Our clients have come to expect more than just to be handed the car keys, metaphorically speaking, they want to be part of the team and really understand how to get the most from their investment – we recognised this and created the Club-GT to ensure that they get exactly what they need. Everything is tailored to match the individual expectations of our clients allowing them to truly realise their potential behind the wheel'
