

## The first words

For me, January has been a month filled with news. New developments at work, but also I did finally find a 1/43<sup>rd</sup> model of the road version of the Sunbeam Lotus. Made in China! And February did bring the Nürnberg Toy Fair with some new Lotus model cars.

A celebrity of days gone has passed away, I did find some interesting books, a very nice new Lotus related website, etc. More than enough items to write about this month so the newsletter is a bit larger as normal. My intention is to create just a few pages, so please do not be disappointed if the next newsletters are smaller....

I hope you will find the following news items useful, please enjoy!

Ronald Ringma

## New Lotus related website

Lotus Central is a non profit-making website set up to promote Lotus related news and events to the whole Lotus community; wherever they may live or whatever Lotus they are interested in. It was launched on 5 January 2009 but was already 'on the air' a few weeks earlier.

You will find a lot of interesting areas on this website, like Lotus News, Features, Motorsport, Events, Classifieds and general information on our favourite car brand.

## News from Group Lotus

Read all about the news items in the press releases section of the website, please follow this link: <http://www.lotusdriversguide.com/Press/index.php>

Recently we did see:

- 2-Eleven takes on Dubai 24 hour
- Group Lotus Response to the UK Government Support Announcement for the Motor Industry

### **New on the website**

Of course new items have been added to several sections of the website. A complete overview of what is new can be found at the 'news' page on the website: <http://www.lotusdriversguide.com/new.php>.

### **Electric Elise**

Power supplier Essent (The Netherlands) is now promoting electric cars, on the website on this subject we can see a video including the ECE Elise.

### **Elan 5 speed**

This is news for the owners of the original Lotus Elan. Did you ever think about a 5-speed conversion, or having your gearbox rebuilt? John Esposito (Quantum Mechanics, Trumbull CT, USA) is currently having 5 speed gear sets machined by BGH in the UK (<http://www.bghgearchtech.co.uk>) with the correct gear ratio. So if you ever wanted to have this, now is the time to act.

John can be contacted at [john@quantummechanics.com](mailto:john@quantummechanics.com)

### **Lotus related video's**

Did you, like me, search for Lotus video's on You Tube? Nice isn't it? But it gets better... there is a new website dedicated to Lotus related video's now, have a look at: <http://www.lotustube.com/> and enjoy what you see!

The problem with websites like these is that, before you notice it, you are looking at video's for hours and hours. You will find private films, professional footage but also official Lotus commercials. There are links to Lotus cars for sale and there is a newly formed free Lotus Owners Club.

## Model cars

Many collectors enjoy putting some extra's between the miniatures that are on display. Lyns Models can help you there, as this company produces a range of **drivers in 1/43<sup>rd</sup> scale**. Here are some examples:

**Shell** launched the James Bond 007 collectable cars towards the end of 2008, including the Sunbeam Alpine 5 featured in the movie "Dr. No", **Lotus Esprit** from "The Spy who Loved Me", BMW Z3 Roadster from "GoldenEye" and the Aston Martin DB5 from "Goldfinger" and "Thunderball". The collectible cars were sold at Shell petrol stations, as long as stocks lasted. I do not know if these models were available in all countries where Shell is represented. The 007 die cast models are produced by Tic Tac, a die cast company from London. All are 1/64<sup>th</sup> scale and come with a display case and a mini poster for that James Bond movie.

In China they have discovered that there is a gap in the 1/43<sup>rd</sup> world: the road version of the **Sunbeam Lotus**. And here it is, the manufacturer is not known to me, it may be Ixo, who can help me here?

From Corgi (ex-Vanguards) we did recently see two new 1/43<sup>rd</sup> versions of the **Cortina**, the Lotus Cortina as used in the 1966 RAC Rally by Jim Clark and Brian Melia and the Cortina Lotus as used in the 1968 London to Sydney Marathon by Roger Clark and Ove Anderson:

### Nürnberg Toy Fair 2009 – Lotus news

**Spark** did show the new Type 25 in 1/43<sup>rd</sup> scale. There will also be two new versions of the 2eleven (New Entry and Supersport) and.... A Mini Moke in Gold Leaf colors with hanger with Lotus Europa! More news from Spark: The Team Lotus JPS helicopter and Cessna airplane! And you can also expect the Type 102B and 102D as driven by Herbert and Hakkinen.

**Minichamps** showed the Type 79 in Andretti and Reuteman version.

A very small Type 49 as driven by Jo Siffert was presented by **Schuco Picolo**, scale 1/90<sup>th</sup>

**Brumm** announced a Jim Clark promotional model of the 25 winning the 1964 British Grand Prix. 1964 wasn't to be a championship winning year though, his main rivals in the BRM (Hill) and Ferrari (Surtees) got the better of him. Clark finished the season in third, seven points behind Hill who was in turn only one point behind Surtees.

**Autoart** did put their new Europa in 1/43<sup>rd</sup> scale on show, it will be available in this year.

**Scalextric** now offers the 1/32<sup>nd</sup> Lotus 49 as a single model, before it was available in a set.

And finally **Ixo** are bringing out their 1/43<sup>rd</sup> Elite in Le mans 1963 livery.

### Patrick McGoohan, "The Prisoner", has passed away

Patrick McGoohan, the Emmy-winning actor who created and starred in the cult classic television show "The Prisoner," has passed away. He was 80 years old. McGoohan died Tuesday 13-01-2009 in Los Angeles after a short illness.

The Prisoner is a British 1960s television series starring and co-created by Patrick McGoohan which combines spy fiction with elements of science fiction, allegory and psychological drama. The fact that he did drive a Lotus Seven made him famous in Lotus circles. Everybody knew what car was meant when people were referring to the registration KAR120C....

The car was on loan from Lotus, and was otherwise employed as the factory demonstrator.

The show was created by McGoohan and George Markstein, with exteriors filmed primarily on location "in the grounds of the Hotel Portmeirion, Penrhyndeudraeth, North Wales", according to the location credit in the final episode. Seventeen episodes were produced.

### Lotus Cup Europe

**LOTUS** 

The Lotus Cup Europe series will visit seven circuits in five countries in the period from May until October 2009. this is the race calendar:

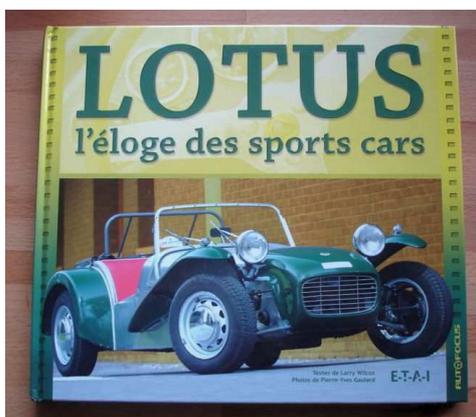

Brands Hatch Grand Prix	1-3 May
Zandvoort	23-24 May
Hockenheim	20-21 June
Donington Park Grand Prix	15-16 August
Dijon Prenois	4-6 September
Spa Francorchamps	2-4 Oct
Le Mans	24-25 October

The Lotus Cup Europe Series, now in its 6th year, started in 2004 as a direct response to customer and Lotus Dealer interest in a 'fun' but professionally - run motorsport series in Europe. The series is designed to offer Lotus owners the opportunity to experience some fantastic European circuits with like-minded enthusiasts. There are two different types of competition offered: Race and Regularity.

### Books and videos

Her is a new discovery for your bookshelves: **Lotus : l'Eloge des sports Cars**, text by Larry Wilcox, pictures made by PY Gaulard. French, easy to read (...), summarizes all Lotus Road Cars. Very nice pictures.

ISBN 13 : 978-2-7268-8750-9

An other nice find is the **Classic Car Buyers Guide**, containing practical advise and tips on 40 of Britain's most popular classic cars. Including the Elan and Elite. The buying guides in every issue of Classic Car Weekly have proven to be popular: offering a wealth of specialist knowledge, including what are the common problems, what's the model's history, technical specification, and what's the market and availability like. All of this is crucial information to gen up on before choosing your classic, hence why this book has brought together just some of these guides in one handy reference book. 148 Pages, soft cover, colour throughout, published in 2008.

## Events

If you like to have your (Club)event listed on our calendar, please let me know! There is no charge. You can find the calendar here: <http://www.lotusdriversguide.com/Events/index.php>.

### **April 18-19 2009, Lotus Show and festival 2009 by Club Lotus (England)**
