

The first words

Nuremberg Toy Fair special !

Just after finishing my February newsletter, I can now present to you a lot of model car news from Nuremberg! I do know that not all of you are model car collectors, but I hope you will enjoy the following information. I will also repeat some models I have already announced, to be complete.

The International Toy Fair is the world's leading fair for toys, hobby and leisure-time articles. The fair, which is open exclusively to the specialist trade, is the perfect communication and order platform for both national and international manufacturers as well as specialist traders and buyers from around the globe.
